

SYNAPPXTM GO

MFP APPLICATION WITH ID CARD READER INSTALLATION GUIDE

Installation of Synappx Go, Card Authentication and Keyboard Emulation Reader

- 1. Download **Synappx Go with ID Card Reader** zip file to a PC and unzip the files. NOTE: Please <u>uninstall</u> earlier version of **Synappx Go** app if previously installed.
- 2. Open a web browser and go to the MFP device webpage (e.g. http://<mfpipaddress>).
- 3. Go to **Apps** > **Installed Apps**. Select **Install an app**.

4. Click **Browse** and select "Synappx-Go XXXXX.fls" then **Install**.

- 5. Click **Browse** and select "cardAuth_XXXXX.fls" then **Install.**
- 6. Select and install "keyboardreader-XXXXX.fls" (the installation order does not matter).
- 7. When the installation of the three files is complete, the Synappx Go, Card Authentication and Keyboard Emulation Reader Driver icons will automatically appear on the machine's web page.

- 8. Verify that the application state for each is **Running**.
- 9. The operation panel will show the following screen.

Note: Users can set card authentication requirements or other settings on the machine's web page.

Uninstallation

- 1. Go to the **Apps** MFP embedded web page.
- 2. Select the **Synappx Go** app.
- 3. Expand the options to see the application details.
- 4. Select **Uninstall**.
- 5. Repeat for Card Authentication or Keyboard Emulation Reader Driver applications.

*AccuRead OCR required.

¹ Additional multifunction printer models for European market are also supported (e.g. MX-C557F, MX-B707F, MXC607F).

- ² For document scan, copy and native authentication, the Synappx Go with Card Reader embedded applications must be installed. Also:
 - Hard Disk Drive is recommended (standard on MX-B557F and MX-C507F) and required to create searchable PDF scans from Synappx Go.
 - Hard Disk Drive is required to support job accounting log for native authentication.
