

Sharp's Data Security Kit (DSK) option provides advanced security features beyond the standard MFP security capabilities. DSK features* include: automatic, manual, and power-up data overwrite; 7-times data overwrite; restricted list printing; and hidden security pattern printing/detection. DSKs are available in commercial and Common Criteria-certified versions (dependent on the MFP model) for a wide-range of Sharp color and monochrome MFPs.

Model Name	Type	Commercial DSK Model	Common Criteria (CC) DSK Model	CC EAL Level	Notes
