Quick Start Manual

BEFORE USING THE MACHINE
- Functions of the machine and procedures for placing originals and loading paper

COPIER
- Using the copy function

PRINTER
- Using the printer function

FACSIMILE
- Using the fax function

SCANNER
- Using the scan function

DOCUMENT FILING
- Storing jobs as files on the hard drive

SETTING MODE
- Configuring settings to make the machine easier to use
OPERATION MANUALS AND HOW TO USE THEM

Start Guide

This manual explains basic procedures for using the machine, cautions for safe use of the machine, and information for the administrator. Read this manual before using the machine. For detailed operating procedures and troubleshooting information, see the manuals in PDF format.

Operation Guide (Displayed on the touch panel)

This guide appears when you tap the icon on the machine's touch panel. The guide explains the basic procedures for operating the machine. In addition, the manuals can be printed (page 3). To print a manual, see "HOW TO PRINT A MANUAL (page 4)". On the MX-2651/MX-3051/MX-3551/MX-4051, the PS3 expansion kit is required.

User's Manual

Detailed explanations of the functions that can be used on the machine are provided in the "User's Manual". The User's Manual can be downloaded from the machine. Download the User's Manual from the Web pages in the machine. For the downloading procedure, see "DOWNLOADING THE OPERATION GUIDE (page 6)".
Other manual

Like the "User's Manual", some manuals as follow can be downloaded from our website and viewed on your computer. Manual types may be updated. For more information, see our website.

- **User's Manual (Address Book Registration)***
  This manual explains how to register, edit, and delete the address book.

- **Software Setup Guide**
  This guide explains how to install the software and configure settings to use the machine as a printer or scanner.

- **Troubleshooting**
  This manual provides answers to frequently asked questions regarding the operation of the machine in each mode.

- **Quick Start Manual**
  This manual is intended to help you get started using the basic and convenient functions of the machine.

- **User's Manual (Web Page Settings)***
  This manual explains the procedures for configuring machine settings from your computer using the web page settings function embedded in the machine.

- **User's Manual (Touch Panel Operation)**
  This manual explains how to operate the touch panel and customize the user interface.

- **Print Release Guide**
  This guide explains how to use the print release function. When you have multiple MFPs that support the print release function on the same network, you can access and print the data that is saved on a MFP from any other MFPs.

- **Cloud Connect Guide**
  This guide explains how to connect the machine to a cloud service on the Internet, enabling you to upload scanned data and print data stored in the cloud.

* These manuals can be printed by following the instruction in Operation Guide.
HOW TO PRINT A MANUAL

1. Press the [Home Screen] key.
   Home screen appears.

3. Set in a touch panel.
   (1) Tap the [Downloading and printing manuals] key.
   (2) Tap the [Other manuals] key.
   (3) Tap the manual icon.
   (4) Tap [Print].
   The Print Settings screen appears. Select settings and tap the [Start] key to start printing.
ACCESSING THE WEB SERVER IN THE MACHINE

When the machine is connected to a network, the machine’s built-in Web server can be accessed from a Web browser on your computer.

OPENING THE WEB PAGES

1. Tap the [Settings] key.

2. Tap [Status] → [Network Status] from the menu.

3. Scroll the screen down and check "IPv4 Address" in IPv4 Settings of TCP/IP.

4. Access the Web server in the machine to open the Web pages.

Start a Web browser on a computer that is connected to the same network as the machine and enter the IP address of the machine.

Recommended Web browsers
Internet Explorer: 11 or higher (Windows®), Microsoft Edge (Windows®), Firefox (Windows®), Safari (Mac OS®), Chrome (Windows®):
Latest version or immediately previous major release

The Web page will appear.
The machine settings may require that user authentication is performed in order to open the Web page. Please ask the administrator of the machine for the password that is required for user authentication.
DOWNLOADING THE OPERATION GUIDE

The Operation Guide, which is a more detailed manual, can be downloaded from the machine's Web pages.

2. Select the desired language.

3. Select the manual you want to download, and click the [Download] button.
**DIFFERENCES BETWEEN MODELS**

This guide explains the models indicated below. There are some differences in the standard equipment and functions of the models. The explanations of operations common to all models assume that the MX-4071 is used with a paper drawer installed.

<table>

► FUNCTIONS THAT CAN BE USED ON THE MACHINE .............28
PART NAMES AND FUNCTIONS

(1) Job separator (upper tray) *
Received faxes and printed papers are delivered to this tray.
You can also output jobs to the job separator (center tray) when a relay unit is installed.

(2) Output tray *
Output is delivered to this tray.

(3) Automatic document feeder
It automatically feeds and scans multiple originals. 2-sided originals can be automatically scanned. For the MX-3071/MX-3571/MX-4071, both sides of 2-sided originals can be automatically scanned at one time.
► USING THE AUTOMATIC DOCUMENT FEEDER (page 18)

(4) USB port (A type)
This is used to connect a USB device such as a USB memory device to the machine.
Supports USB 2.0 (Hi-Speed).

(5) Operation panel
This panel hosts the [Power] button, [Power Save] button/indicator, error indicator, [Home Screen] key, main power indicator, data notification indicator, communication indicator, and touch panel.
Use the touch panel to operate each of these functions.
► OPERATION PANEL (page 15)

(6) Exit tray unit (right tray) *
Set so that paper is output into this tray as required.

(7) Inner finisher *
This staples paper. A punch module can also be installed to punch holes in output paper.
You can also perform stapling manually.

(8) Finisher *
This staples paper. A punch module can also be installed to punch holes in output paper.

(9) Saddle Stitch Finisher *
This staples and folds paper. A punch module can also be installed to punch holes in output paper.

(10) Finisher (large stacker) *
This staples paper. A punch module can also be installed to punch holes in output paper.
You can also perform stapling manually.

(11) Paper pass unit *
Relay between the machine and the finisher or saddle stitch finisher.

(12) Saddle Stitch Finisher (large stacker) *
This staples and folds paper. A punch module can also be installed to punch holes in output paper.
You can also perform stapling manually.

(13) Tray 1
Store paper in this tray. A maximum of 550 sheets (80 g/m² (20 lbs.)) of paper can be loaded.

(14) Tray 2 (when a low stand/550 sheet paper drawer or stand/550/2x550/3x550/550&2100 sheet paper drawer is installed) *
Store paper in this tray. A maximum of 550 sheets (80 g/m² (20 lbs.)) of paper can be loaded.

(15) Tray 3 (when a stand/2x550/3x550 sheet paper drawer is installed) *
Store paper in this tray. A maximum of 550 sheets (80 g/m² (20 lbs.)) of paper can be loaded.

(16) Tray 4 (when a stand/3x550 sheet paper drawer is installed) *
Store paper in this tray. A maximum of 550 sheets (80 g/m² (20 lbs.)) of paper can be loaded.

(17) Tray 3 (when a stand/550&2100 sheet paper drawer is installed) *
Store paper in this tray. A maximum of 1200 sheets (80 g/m² (20 lbs.)) of paper can be loaded.

(18) Tray 4 (when a stand/550&2100 sheet paper drawer is installed) *
Store paper in this tray. A maximum of 900 sheets (80 g/m² (20 lbs.)) of paper can be loaded.

(19) Tray 5 (when a large capacity tray is installed) *
Store paper in this tray. A maximum of 3000 sheets (80 g/m² (20 lbs.)) of paper can be loaded.

(20) Front cover
Open this cover to switch the main power switch to "On" or "Off" to replace a toner cartridge.

* Peripheral device. For more information, see the User's Manual.
BEFORE USING THE MACHINE

1. Paper feed roller
   This roller rotates to automatically feed the original.

2. Document feeding area cover
   Open this cover to remove an original misfeed or clean the paper feed roller.
   On the MX-2651/MX-3051/MX-3551/MX-4051, this cover is also opened to clean the paper feed roller.

3. Original guides
   These guides help ensure that the original is scanned correctly. Adjust the guides to the width of the original.

4. Document feeder tray
   Place the original. Originals must be placed face up.

5. Original exit tray
   The original is discharged to this tray after scanning.

6. Motion sensor*2
   This sensor detects the presence of a person that approaches the machine, and automatically wakes the machine from sleep mode (Motion Sensor Mode Only).

7. Main power indicator
   This lamp lights up when the machine's main power switch is in the "" position.

8. [Power] button
   Use this button to turn the machine's power on and off.

9. Utility table*1
   You can use this as a work platform, or temporarily place originals or a mobile device.

10. USB port (A type)
    This is used to connect a USB device such as a USB memory device to the machine.
    Supports USB 2.0 (Hi-Speed).

11. LAN connector
    Connect the LAN cable to this connector when the machine is used on a network.
    Use a shielded LAN cable.

12. Scanning area
    Originals placed in the automatic document feeder are scanned here.

13. Document glass
    If you want to scan books or other thick originals that cannot be fed through the automatic document feeder, place them on this glass.
    ► USING THE DOCUMENT GLASS (page 18)

14. Original size detector
    This unit detects the size of an original placed on the document glass.

15. Toner cartridge
    This cartridge contains toner. When the toner in a cartridge runs out, replace with a new one.

16. Waste toner box
    This container collects excess toner that remains after printing.

17. Main power switch
    Use this button to turn the machine's power on and off.
    When using the fax or Internet fax functions, always keep this switch in the "" position.

18. Bypass tray
    Use this tray to feed paper manually. When loading paper larger than 8-1/2" x 11"R or A4R, pull out the extension guide.
    ► Bypass tray (page 22)

19. Power plug

20. Telephone line jack (LINE)*1
    When the fax function of the machine is used, the telephone line is connected to this jack.

21. Extension phone jack (TEL)*1
    When the fax function of the machine is used, an extension phone can be connected to this jack.

*1 Peripheral device. For more information, see the User's Manual.
*2 Can only be used on the MX-3071/MX-3571/MX-4071.

• Do not place anything that weighs more than 5kg or otherwise apply a load.
• Do not place a container that contains water or other liquid. Risk of fire and electrical shock if the liquid spills and enters the machine.
• Working on the table while the machine is in operation may cause poor image quality or other problems.
**TURNING ON/OFF THE POWER**

This section describes how to turn on/off the machine’s power and how to restart the machine. Operate two power switches: the main power switch inside the front cover, located in the lower left corner, and the [Power] button on the operation panel.

**Turning on the power**

- Turn the main power switch to the "I" position.
- When the main power indicator lights in green, press the [Power] button.

**Turning off the power**

- Press the [Power] to turn off the power.
  To turn off the power for an extended time, press the [Power] button to turn off the power, and switch the main power switch to the "O" position after the operation panel screen disappears.

**Restart the machine**

- Turn off the power by pressing the [Power] button and then press it again to turn on the power.

![Diagram of power switches]

- When turning off the main power switch, press the [Power] button on the operation panel and then turn the main power switch to the "O" position.
  In a sudden case of main power outage, turn the power for the machine back on and then turn it off in the correct order.
  If the machine is left for a long time with the main power having been turned off prior to the [Power] button being turned off, abnormal noises, degraded image quality or other problems may result.
- Turn off both the [Power] button and the main power switch and unplug the power cord if you suspect a machine failure, if there is a bad thunderstorm nearby, or when you are moving the machine.

- When using the fax or Internet fax function, always keep the main power switch in the "I" position.
- In order for some settings to take effect, the machine must be restarted. In some states of the machine, restarting with the [Power] button may not make the settings take effect. In this case, turn off the main power switch and then turn it on again.
OPERATION PANEL

Pressing the [Home Screen] key on the operation panel displays the home screen on the touch panel. The home screen displays the keys for selecting modes or functions.

(1) Data notification indicator
Blinks during Fax and Internet Fax reception. When printing is finished, the light turns off. When the job separator (upper tray) is used for output, this blinks until the output is removed. You can also have the indicator light in some modes when a job is being executed, in the ready state, and when an original is detected in the auto document feeder.

(2) Communication indicator
This lamp illuminates such as when the power to the machine is turned on and when a user logs in to the machine.

(3) Touch Panel
Messages and keys appear on the touch panel display. Operate the machine by directly tapping the displayed keys.
(a) Tap a mode to change to that mode.
(b) Display the machine’s status other than the job using icons.
(c) Display the job in progress or waiting with text or icon.
(d) Select shortcut keys for modes or functions.
(e) Switch the pages for displaying shortcut keys.
(f) Display Toner Quantity.
(g) Display Operation Guide.
(h) Use these keys to select functions that make the machine easier to use.
(i) Select functions that can be utilized in respective modes. Tap the tab, and the list of function keys is displayed.

(4) Error indicator
Lights solidly or blinks to indicate the status of the error.

(5) Main power indicator
This lamp lights up when the machine’s main power switch is in the “ ” position. While the light is blinking, the power cannot be turned on by pressing the [Power] button.

(6) [Power] button
Use this button to turn the machine’s power on and off.

(7) [Power Save] button/indicator
Use this button to set the machine to Sleep Mode for energy saving. [Power Save] button blinks when the machine is in Sleep Mode.

(8) [Home Screen] key
Display the home screen.

(9) NFC touch point area (MX-3071/MX-3571/MX-4071)
You can easily connect a mobile device to the machine by touching the mobile device.
To change the angle of the operation panel

You can change the angle of the operation panel. Adjust the angle for ease of viewing.

MOTION SENSOR
(MX-3071/MX-3571/MX-4071)

This sensor detects the presence of a person that approaches the machine, and automatically wakes the machine from sleep mode (Motion Sensor Mode Only).

Three settings are available for the detection range ( | | | ).

- The motion sensor detects the movement of sources of heat.
- The detection range may vary depending on the installation site and environment (ambient temperature, etc.).
Checking the status of a job / priority / canceling

To display the Job Status screen, tap the [Job Status] key in the home screen, or tap the [Job Status] key that appears in the upper right corner of each mode screen.

**Check the job status**

1. Tap the tab of the mode you want to check.
2. Check copy jobs and print jobs on the [Print] tab.
3. Tap the [Job Queue] or [Complete] key.
4. Check the jobs in the list.
5. If you want to give a job priority or cancel a job, tap that job.

**To give the job priority:**
Tap [Change Job Priority], and tap a Change Priority key.

**To cancel the job:**
Tap [Stop/Delete].

**To return to the original screen:**
Tap the [Back] key.

---

**PREVIEW SCREEN**

You can tap the [Preview] key to open the Preview screen. In the Preview screen on the touch panel, you can view previews of jobs and images stored in the machine.

**Easy mode**

**Normal mode**

---

**Keys used in the preview screen**

- This changes the mode to edit mode. Pages of the original can be changed, rotated, or deleted.
- This rotates the preview image of whole page in the arrow’s direction. The printing result is not rotated.
- This reduces the image.
- This displays preview images of respective pages.
- This displays the scroll bar for enlargement/reduction operations. Moving the slider to the left reduces the image, and moving the slider to the right enlarges the image.
- This displays thumbnails of preview images.
- This enlarges the image.
- This displays pages in a 3D view.

*1 Can also be used in easy mode.
*2 In Easy mode, this appears when you tap .
PLACING ORIGINALS

The automatic document feeder can be used to automatically scan many originals at once, and this saves you the trouble of manually feeding each original. For originals that cannot be scanned using the automatic document feeder, such as a book or a document with notes attached, use the document glass.

USING THE AUTOMATIC DOCUMENT FEEDER

When using the automatic document feeder, place the originals in the document feeder tray. Make sure an original has not been placed on the document glass.

Adjust the original guides to the width of the originals.

Place the originals face up with the edges aligned evenly. The indicator line indicates approximately how many originals can be placed. The placed originals must not be higher than this line.

USING THE DOCUMENT GLASS

Take care that your fingers are not pinched when closing the automatic document feeder. After placing the original, be sure to close the automatic document feeder. If left open, parts outside of the original will be copied black, causing excessive use of toner.

Place the original face down. Align the top left corner of the original with the tip of the mark in the far left corner of the glass.

Place the original face down.

Set the orientation of the image to ensure that the orientation of the placed original is correctly recognized. For details, see the User's Manual.
ADJUSTING THE VOLUME

You can adjust the volume of sounds generated by the machine. Tap the [Settings] key and configure the following settings from the [System Settings] tab.
(Administrator rights are required.)
► Setting mode when an administrator is logged in (page 62)

<table>
<thead>
<tr>
<th>Setting</th>
<th>Settings</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sound Settings → Beep Sound Settings (Common) → Scan Complete Sound (Image Send)</td>
<td>Configure settings for the sound that is generated at the completion of scanning when using the fax, scan, document filing, or other image send function.</td>
</tr>
<tr>
<td>Sound Settings → Beep Sound Settings (Image Send) → Fax</td>
<td>For fax, configure settings for the on-hook (speaker) volume, ringing sound, line monitor, reception completed sound, sending completed sound, and send/receive error sound.</td>
</tr>
<tr>
<td>Sound Settings → Beep Sound Settings (Image Send) → Internet Fax</td>
<td>Configure settings for sounds generated when an Internet fax is received and when a communication error occurs.</td>
</tr>
<tr>
<td>Sound Settings → Beep Sound Settings (Common) → Keys Touch Sound</td>
<td>Configure settings for the sound generated when a key is tapped, and whether a sound is generated when the key for a default setting is tapped.</td>
</tr>
</tbody>
</table>
LOADING PAPER

NAMES AND LOCATIONS OF TRAYS

The names of the trays are as follows.

(1) Tray 1
(2) Tray 2 (when a low stand/550 sheet paper drawer or stand/550/2x550/3x550/550&2100 sheet paper drawer is installed)
(3) Tray 3 (when a stand/2x550/3x550 sheet paper drawer is installed)
(4) Tray 4 (when a stand/3x550 sheet paper drawer is installed)
(5) Tray 3 (when a stand/550&2100 sheet paper drawer is installed)
(6) Tray 4 (when a stand/550&2100 sheet paper drawer is installed)
(7) Bypass tray
(8) Tray 5 (when a large capacity tray is installed)

Setting orientation of the print side

The setting orientation varies for the print side of paper, depending on the tray used. For "Letter Head" and "Pre-Printed", set the paper in the reverse orientation. Place with the print side facing the direction indicated below.

<table>
<thead>
<tr>
<th>Tray</th>
<th>In normal status</th>
<th>With letter head or pre-printed paper set</th>
</tr>
</thead>
<tbody>
<tr>
<td>Trays 1 - 4</td>
<td>Facing up</td>
<td>Facing down</td>
</tr>
<tr>
<td>Bypass tray, Tray 5</td>
<td>Facing down</td>
<td>Facing up</td>
</tr>
</tbody>
</table>
LOAD PAPER INTO THE TRAY 1 - 4

1. Pull out the paper tray.
   Gently pull the tray out until it stops.
   To load paper, go to step 3. To load a different size of paper, go to the next step.

2. Adjust guide plates A and B to match the longitudinal and transversal dimensions of the paper to be loaded.
   • The guide plates A and B are slidable. Squeeze the separator plate lever and slide to the desired paper size.
   • Adjust to the non-standard paper size so that the paper will not be too loose or too tight.
   • To load SRA3 paper, the position of the guide must be adjusted. For details, see the User's Manual.

3. Insert the paper into the tray.
   Load the paper with the print side facing up. The stack must not be higher than the indicator line.
   Fan the paper well before loading it. Otherwise, multiple sheets may feed at once and cause a misfeed.

4. Gently push the paper tray into the machine.
   Push the tray firmly all the way into the machine slowly.
   Forcefully inserting the paper may cause skewed feeding and paper misfeeds.

Loading envelope in tray 1
Load the paper with the copy and print side facing up. The diagram shows an example of printing on the front side. The maximum number of sheets 50 may not exceed the indicator line.

When loading envelopes in the tray 1, set the paper type.
▶ CHANGE THE SETTING OF THE PAPER TRAY (page 25)
LOADING PAPER IN OTHER TRAYS

Bypass tray

1. Open the bypass tray.

2. Load the paper with the print side facing down.
   Insert the paper along the bypass tray guides all the way into the bypass tray until it stops slowly. Inserting the paper with excessive force may cause the leading edge to fold back. Inserting the paper too loosely may cause skewed feeding or misfeeds. The paper must not exceed the maximum number of sheets and must not be higher than the indicator line.

3. Set the bypass tray guides correctly to the width of the paper.
   Adjust the bypass tray guides so that they slightly contact the loaded paper.

Loading envelopes
Only the front side of envelopes can be printed or copied on. Place the front side facing down.

When loading envelopes in the bypass tray, set the paper type.
► CHANGE THE SETTING OF THE PAPER TRAY (page 25)
Stand/550&2100 sheet paper drawer

1. **Pull out the paper tray.**
   Gently pull the tray out until it stops.

2. **Place paper into the tray.**
   Load the paper with the print side facing up. The stack must not be higher than the indicator line (maximum of 1200 sheets for tray 3, or maximum of 900 sheets for tray 4). The paper must not exceed the maximum number of sheets and must not be higher than the indicator line.
   Fan the paper well before loading it. Otherwise, multiple sheets may feed at once and cause a misfeed.

3. **Gently push the paper tray into the machine.**
   Push the tray firmly all the way into the machine slowly.
Large Capacity Tray

If you find it necessary to change the paper size, consult the dealer or nearest SHARP Service Department.

1. Open the top cover.

2. Place the paper in the paper feed table.
   Insert the paper into the tray until it stops.
   Place the paper print side down. The stack should not exceed the indicator line (maximum 3000 sheets).
   Fan the paper well before loading it. If the paper is not fanned, multiple sheets may feed at once and cause a misfeed.

   When adding paper, take care that previously loaded paper does not shift out of place. This may cause misfeeds and folding back of the front edge of the loaded paper.

3. Gently close the cover.
CHANGE THE SETTING OF THE PAPER TRAY

To change the paper loaded in the tray, change the machine's tray settings from the [Tray Settings] key in the home screen.

As an example, the steps for changing the paper in tray 1 from 8-1/2" x 11” plain paper to 5-1/2" x 8-1/2"R recycled paper are explained below.

2. Tap the [Tray Settings] key and tap the key of the paper tray 1.

3. Set the paper type.
   (1) Tap the tab for the Paper Type.
   (2) Tap the [Recycled] key.

4. Set the paper size.
   (1) Tap the tab for the Paper Size.
   (2) Tap the [Auto-Inch] key.
   (3) Tap in "Tray Settings".
BEFORE USING THE MACHINE

SAVING CONTACTS IN THE ADDRESS BOOK

"Contacts" and "Group" can be stored in the address book.
The procedure for adding a new contact to the address book by directly entering the name and address is explained here as an example.

Press the [Home Screen] key.
Home screen appears.

Tap the [Address Control] key.

Enter the information you want to register in the address book.

(1) Enter basic information.
Be sure to enter [Name] and [Initial].
To specify a category, select one from a category list that appears when the entry box is tapped.
To register a contact for frequent use, select the [Also Register for Frequent Use] checkbox.

(2) Tap [Fax Number], [E-mail Address], [Internet Fax Address], or [Direct SMTP Address], enter the address, and tap OK.

Tap the [Register] key.
The first address of each address type is set as the default address. If no address has the checkbox next to it selected, a confirmation screen will appear asking you if you want to select a default address.

Editing or deleting a contact
Tap the [Address Book] key in the home screen, select the contact to be edited or deleted, tap in the action panel, and tap [Edit] or [Delete].
USER AUTHENTICATION

When user authentication is enabled in settings mode, you must log in in order to use the machine. User authentication is disabled in the factory default settings.
When you have finished using the machine, log out.

ABOUT AUTHENTICATION METHODS

There are three user authentication methods: authentication by user number, authentication by login name / password, and authentication by quick authentication. Ask the system administrator of the machine for the information you need to log in.

AUTHENTICATION BY USER NUMBER

The following procedure is used to log in using a user number received from the administrator of the machine.
When starting the machine, the login screen appears.

AUTHENTICATION BY LOGIN NAME/PASSWORD

This method enables users to log in using a login name and password received from the administrator of the machine or the administrator of the LDAP server.
When starting the machine, the login screen appears.

AUTHENTICATION BY QUICK AUTHENTICATION

This can only be used on the machine when carrying out user authentication. This method provides simple authentication for an administrator who has been previously registered on the machine.

Logout

When you have finished using the machine, log out. This helps prevent unauthorized people from using the machine.
## FUNCTIONS THAT CAN BE USED ON THE MACHINE

The machine has many functions for a variety of purposes. Some convenient functions are described in below. For details, see the User's Manual.

### PAPER, AND TIME SAVING FUNCTIONS

<table>
<thead>
<tr>
<th>N-Up</th>
<th>Blank Page Skip</th>
</tr>
</thead>
<tbody>
<tr>
<td>This function uniformly lays out multiple original pages onto a single sheet of paper. This function is convenient when you wish to present multiple pages in a compact format, or show a view of all pages in a document.</td>
<td>If the scanned original contains blank pages, this function skips them to copy or send only non-blank pages. The machine detects blank pages, enabling you to skip useless blank sheets without checking an original.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Mixed Size Original</th>
<th>Original Count</th>
</tr>
</thead>
<tbody>
<tr>
<td>This feature scans originals in different sizes at the same time even when 5-1/2&quot; x 8-1/2&quot; (B5) size originals are mixed with 8-1/2&quot; x 11&quot; (A4) size originals. When copying, you can combine the mixed originals setting and auto ratio setting to change the ratio used for each original and print all pages on the same size of paper.</td>
<td>Counting the number of scanned original sheets and display the count before transmission. Checking the number of scanned original sheets before transmission helps prevent mistakes.</td>

</thead>
<tbody>
<tr>
<td>This function makes a proof copy before printing the specified number of copies. Check the preview image with a proof copy. If necessary, change the setting. Using this function stores the scanned original in the machine, saving you the trouble of re-scanning the original in the changed setting.</td>
<td>This function shares a copy job half-and-half between two machines connected to the network, enabling the reduction of the copy time.</td>
</tr>
</tbody>
</table>
BEFORE USING THE MACHINE

Job Build
This function divides the originals into sets and feeds each set through the automatic document feeder one set at a time when copying or sending a very large number of originals.

Card Shot
This function copies or sends the front and reverse sides of a card on one sheet, not on separate sheets. This function is convenient for making copies for identification purposes and helping save paper.

Multi-crop scan / Image Crop
You can place multiple documents such as receipts or photographs on the document glass, and automatically crop and save each document to a separate file during scanning.

Auto Set
To automatically set scan settings appropriate for the original, tap the [Auto Set] key in the base screen of Easy Mode. Image Orientation*, Resolution, and Blank Page Skip, Duplex Setup*, PDF Skew Adjustment, Automatically Detect Mono2/Grayscale are set automatically.
* On the MX-2651/MX-3051/MX-3551/MX-4051, the OCR expansion kit is required.

SECURITY REINFORCEMENT FUNCTIONS

Hidden Pattern Print
Characters to prevent unauthorized copying such as pre-set or customized text are placed as invisible characters in a background pattern. When an output sheet with a pattern print is copied, the hidden characters will appear.

Tracking Information Print
This function forcibly prints the pre-specified traceable information to prevent an unauthorized copy.

This section explains the basic procedures for using the copier function.

► MAKING COPIES .............................................................................32
► COPY MODE .....................................................................................34
► COPYING ON SPECIAL PAPER (Bypass Copy) .............................35
MAKING COPIES

This section explains how to set a Copy Ratio.

1. **Press the [Home Screen] key.**
   Home screen appears.

2. **Tap the [Easy Copy] mode icon.**
   Easy Copy mode screen appears.

3. **Place the original.**
   Place the original in the document feeder tray of the automatic document feeder, or on the document glass.
   - [PLACING ORIGINALS (page 18)]

4. **Tap the [Copy Ratio] key.**
   The functions below can be enabled in easy mode.
   - Paper Select
   - 2-Sided Copy
   - Copy Ratio
   - Staple*1, Staple / Punch*2
   - Color Mode
   - Original
   - Exposure
   - N-Up
   - Card Shot
   *1 When an inner finisher, finisher, finisher (large stacker), saddle stitch finisher or saddle stitch finisher (large stacker) is installed.
   *2 When a punch module and inner finisher, finisher, finisher (large stacker), saddle stitch finisher or saddle stitch finisher (large stacker) is installed.
   To select more detailed settings, tap the [Detail] key and select settings in normal mode.
   - [COPY MODE (page 34)]
Set the copy ratio.
After the settings are completed, tap [OK].

Set the number of copies and then tap the [Color Start] key or [B/W Start] key.
- In the factory default state, the machine detects whether the original is black & white or full color when you tap the [Color Start] key, and automatically switches between full color and black & white binary scanning. When you tap the [B/W Start] key, the machine scans in black & white binary. For details, see the User's Manual.
- To check a preview of a document, tap the [Preview] key. ► PREVIEW SCREEN (page 17)
COPY MODE

Copy mode has two modes: easy mode and normal mode. Easy mode is limited to frequently used functions that allow you to smoothly perform most copy jobs. If you need to select detailed settings or special functions, use normal mode. All functions can be used in normal mode.

1. Show the size of the placed original.
2. Select the function that you want to use.
3. All settings are reset.
4. Scan the original and show a preview image.
   ▶ PREVIEW SCREEN (page 17)
5. Enter the number of copies.
6. Starts black and white copying.
7. Starts color copying.
8. Switch the pages for displaying shortcut keys.
9. Change to normal mode.
10. Setting keys that can be used to make copies.
11. Displays the list of function keys. Frequently used [Others] can be registered.
12. Check the current settings.
13. Displays the list of keys other than the function keys indicated above.
   ▶ FUNCTIONS THAT CAN BE USED ON THE MACHINE (page 28)
14. Indicates the presence or absence of an original and size of paper loaded in each tray. Tapping this makes the paper select screen opened.
15. Displays the functions that can be utilized in the Copy Mode.

To select a function in easy mode
In "Settings", select [System Settings] → [Common Settings] → [Operation Settings] → [Easy Mode Settings] → [Easy Copy]
COPYING ON SPECIAL PAPER (Bypass Copy)

This section explains how to load 8-1/2” x 11” heavy paper in the bypass tray.

1. Load paper into the bypass tray.
   - Bypass tray (page 22)

2. Select settings in the touch panel.
   1. Tap the [Heavy Paper 1], [Heavy Paper 2], [Heavy Paper 3] or [Heavy Paper 4] key.
      Tap the [Heavy Paper 1] key if the paper is 28 lbs. bond to 65 lbs. cover (106 g/m² to 176 g/m²), the [Heavy Paper 2] key if the paper is 65 lbs. cover to 80 lbs. cover (177 g/m² to 220 g/m²), the [Heavy Paper 3] key if the paper is 80 lbs. cover to 140 lbs. index (221 g/m² to 256 g/m²), or the [Heavy Paper 4] key is the paper is 140 lbs. index to 110 lbs. cover (257 g/m² to 300 g/m²).
   2. Tap the [Size: Auto-Inch] tab.
   3. Tap the [Auto-Inch] key.
   4. Tap of "Tray Settings".

3. Tap the [Easy Copy] mode icon.
   Easy Copy mode screen appears.
4 Tap the [Paper Select] Key.

5 Select the Bypass Tray.

6 Set the number of copies and then tap the [Color Start] key or [B/W Start] key.
   - In the factory default state, the machine detects whether the original is black & white or full color when you tap the [Color Start] key, and automatically switches between full color and black & white binary scanning. When you tap the [B/W Start] key, the machine scans in black & white binary. For details, see the User’s Manual.
   - To check a preview of a document, tap the [Preview] key.  
   - PREVIEW SCREEN (page 17)
This section explains the basic procedure for printing using the printer driver of the machine. The explanations of screens and procedures are primarily for Windows® 10 in Windows® environments, and Mac OS X v10.12 in Mac OS environments. The window varies depending on the operating system version, the printer driver version, and the application.

► PRINTING IN A WINDOWS ENVIRONMENT ..................................38
► PRINTING IN A Mac OS ENVIRONMENT .....................................40
► DIRECTLY PRINTING A FILE IN USB MEMORY...............................42
PRINTING IN A WINDOWS ENVIRONMENT

The following example explains how to print an A4 size document from "WordPad", which is a standard accessory program in Windows.

To install the printer driver and configure settings in a Windows environment, see the Software Setup Guide. For information on the available printer drivers and the requirements for their use, see the User's Manual.

2. Select the machine's printer driver, and click the [Preferences] button.

   If the printer drivers appear as a list, select the name of the printer driver to be used from the list.

3. Select print settings.

   (1) Click the [Main] tab.
   (2) Select the original size.
   (3) To select settings on other tabs, click the desired tab and then select the settings.
   (4) Click the [OK] button.

   • Help can be displayed for a setting by clicking the setting and pressing the [F1] key.
   • Click the [Help] button, the Help window will open to let you view explanations of the settings on the tab.
PRINTING ON ENVELOPES

The bypass tray or the tray 1 can be used for envelope printing.

(1) Click the [Paper Source] tab.

(2) Select the envelope size from "Output Size".
   When "Output Size" is set to [DL], "Paper Type" is also automatically set to [Envelope].

(3) Select [Bypass Tray] or the [Tray 1] from the "Paper Tray".

Set the paper type of the bypass tray or the tray 1 to [Envelope] and load an envelope into the bypass tray or the tray 1.

► Loading envelopes (page 22)
PRINTING IN A Mac OS ENVIRONMENT

The following example explains how to print an A4 size document from "TextEdit", which is a standard accessory program in Mac OS.

To install the printer driver and configure settings in a Mac OS environment, see the Software Setup Guide.

On the MX-2651/MX-3051/MX-3551/MX-4051, the PS3 expansion kit is required to use the machine as a printer in a Mac OS environment.

2. Select paper settings.
   (1) Make sure that the correct printer is selected.
   (2) Select the paper settings.
       Set the paper size, paper orientation, and copy ratio.
   (3) Click the [OK] button.

PRINTING ON ENVELOPES

The bypass tray or the tray 1 can be used for envelope printing.

Select the envelope size in the settings of the application ("Page Setup" in many applications) and then perform the following steps.

(1) Select the envelope size from "Paper Size".
(2) Select [Paper Feed].
(3) Select [Bypass Tray(Envelope)] or the [Tray 1(Envelope)] from the "All Page From".

Set the paper type of the bypass tray or the tray 1 to [Envelope] and load an envelope into the bypass tray or the tray 1.

► Loading envelopes (page 22)
**DIRECTLY PRINTING A FILE IN USB MEMORY**

Files in a USB memory device connected to the machine are printed from the operation panel of the machine without using the printer driver. The file types (and corresponding extensions) that can be printed directly are shown below.

<table>
<thead>
<tr>
<th>File Type</th>
<th>TIFF</th>
<th>JPEG</th>
<th>PCL</th>
<th>PDF/EncryptedPDF/Compact PDF</th>
<th>PS*1</th>
<th>DOCX, XLSX, PPTX*2</th>
<th>PNG</th>
</tr>
</thead>
<tbody>
<tr>
<td>Extension</td>
<td>tiff, tif</td>
<td>jpeg, jpg, jpe, jif</td>
<td>pcl, prn</td>
<td>pdf</td>
<td>ps, prn</td>
<td>docx, xlsx, pptx</td>
<td>png</td>
</tr>
</tbody>
</table>

*1 On the MX-2651/MX-3051/MX-3551/MX-4051, the PS3 expansion kit is required.
*2 On the MX-2651/MX-3051/MX-3551/MX-4051, the Direct print expansion kit is required.

1. Connect the USB memory device to the machine.

2. When a screen for selecting the action appears, tap [Print from external memory device (USB)].
   - If the screen does not appear, follow these steps:
     1. Tap the [HDD File retrieve] key.
     2. Tap [Select File from USB Memory to Print] on the action panel.

3. Tap the key of the file that you wish to print, and tap [Choose Print Settings] on the action panel.
   - When printing multiple files, tap the keys of the files you wish to print, and tap [Print] on the action panel.
   - Tap to switch to thumbnails.

4. Select print settings and tap the [Start] key.

5. Remove the USB memory device from the machine.

Qualcomm® DirectOffice™ is a product of Qualcomm Technologies, Inc. and/or its subsidiaries. Qualcomm® is a trademark of Qualcomm Incorporated, registered in the United States and other countries.

DirectOffice™ is a trademark of CSR Imaging US, LP, registered in the United States and other countries.
This section explains the basic procedures for using the fax function of the machine.

► SENDING A FAX ................................................................. 44
► FAX MODE ........................................................................... 46
SENDING A FAX

This section explains the basic procedure for sending a fax. In fax mode, color originals are sent as black and white images.

1. Press the [Home Screen] key.
   Home screen appears.

2. Tap the [Easy Fax] mode icon.
   Easy Fax mode screen appears.

3. Place the original.
   Place the original in the document feeder tray of the automatic document feeder, or on the document glass. ► PLACING ORIGINALS (page 18)

4. Tap the [Address Book] key.
   You can also tap the numeric keys to directly enter a fax number, or select a fax number from the transmission log.

5. Tap the key of the desired destination.
   Addresses of the current mode are selected from addresses whose checkboxes were selected when the tapped destination was registered. If no addresses were registered with the checkbox selected, tap the [Yes] key in the confirmation screen and select the desired addresses. To add another destination, tap the key of the destination.
6 Tap the [All Destinations] key.
A list of the selected destinations appears.

7 Confirm the destination.
If an incorrect destination appears in the list, tap the destination and then tap the [Delete] key.

8 Tap ➔ to change screens and select settings.
Change settings as needed.
The functions below can be enabled in easy mode.
- Original set
- Exposure
- Resolution
To select more detailed settings, tap the [Detail] key and select settings in normal mode.
► FAX MODE (page 46)

9 Tap the [Start] key.
To check a preview of a document, tap OK to return to the base screen of Easy Fax and tap the [Preview] key.
► PREVIEW SCREEN (page 17)
Fax mode has two modes: easy mode and normal mode. Easy mode is limited to frequently used functions that allow you to smoothly perform most fax jobs. If you need to select detailed settings or special functions, use normal mode.

To select a function in easy mode
In "Settings", select [System Settings] → [Common Settings] → [Operation Settings] → [Easy Mode Settings] → [Easy Fax]

(1) Displays the sizes of the original and the data to send.
(2) Select the address and functions you want to use.
(3) Reset settings and addresses.
(4) Scan the original and show a preview image. ➤ PREVIEW SCREEN (page 17)
(5) Fax transmission will start immediately.
(6) Switch the pages for displaying shortcut keys.
(7) Change to normal mode.
(8) Shows the destination fax number.
(9) Setting keys that can be used for the fax.
(10) Displays the list of function keys. Frequently used [Others] can be registered.
(11) Check the current settings.
(12) Displays the list of keys other than the function keys indicated above. ➤ FUNCTIONS THAT CAN BE USED ON THE MACHINE (page 28)
(13) Shows the amount of free memory available for fax reception.
(14) Tap to dial in speaker mode.
(15) Enter the fax number.
(16) Displays the functions that can be utilized in the Fax Mode.
(17) Searches for the address.
(18) Displays the address book.
This section explains the uses of the network scanner function and the basic procedure for using scan mode.
The Internet fax expansion kit is required to use the Internet fax function.

► NETWORK SCANNER FUNCTION.................................................. 48
► SCANNING AN ORIGINAL.......................................................... 49
► SCANNER MODE ........................................................................... 51
NETWORK SCANNER FUNCTION

The network scanner function of the machine can be used to transmit scanned images by a variety of methods. The network scanner function has the following modes. To use a mode, tap the button of the mode in the home screen.

Scan modes

- **USB memory mode**
  - Use this mode to save an image to USB memory

- **Internet fax mode**
  - Use this mode to send a fax via the Internet
    - The machine supports Direct SMTP.

- **PC scan mode**
  - Use this mode to scan a photo while making corrections on your computer
    - A TWAIN-compliant software application can be used.

- **Data entry mode**
  - If you want to use a document solution linked to an application

**Scan the original, and then...**

- **Scan to E-mail**
  - To send an image to an e-mail address, use

- **Scan to FTP**
  - To upload an image to an FTP server, use

- **Scan to Network Folder**
  - To send an image to a shared folder on your computer, use

- **Scan to Desktop**
  - To process an image in a specific application, use
SCANNING AN ORIGINAL

The basic operation for scanning is explained below. The procedure for sending a scanned file by E-mail to a destination stored in the address book is explained here.

1. Press the [Home Screen] key.
   Home screen appears.

2. Tap the [Easy Scan] mode icon.
   Easy Scan mode screen appears.

3. Place the original.
   Place the original in the document feeder tray of the automatic document feeder, or on the document glass. ► PLACING ORIGINALS (page 18)

4. Tap the [Address Book] key.

5. Tap the key of the desired destination.
   Addresses of the current mode are selected from addresses whose checkboxes were selected when the tapped destination was registered. If no addresses were registered with the checkbox selected, tap the [Yes] key in the confirmation screen and select the desired addresses. To add another destination, tap the key of the destination.
6 Tap the [All Destinations] key.
A list of the selected destinations appears.

7 Confirm the destination.
If an incorrect destination appears in the list, tap the destination and then tap the [Delete] key.

8 Tap ➡ to change screens and select settings.
Change settings as needed.
The functions below can be enabled in easy mode.
• Original
• Resolution
• File Format
• Blank Page Skip
To select more detailed settings, tap the [Detail] key and select settings in normal mode.
► SCANNER MODE (page 51)

9 Tap the [Color Start] key or [B/W Start] key.
• In the factory default state, the machine detects whether the original is black & white or full color when you tap the [Color Start] key, and automatically switches between full color and black & white binary scanning. When you tap the [B/W Start] key, the machine scans in black & white binary. For details, see the User's Manual.
• To check a preview of a document, tap OK to return to the base screen of Easy Scan and tap the [Preview] key.
► PREVIEW SCREEN (page 17)
SCANNER MODE

SELECTING SCANNER MODE

In the home screen, tap the icon of the desired scanner mode to display the base screen of scanner mode. If the button you want to use does not appear, tap or to change the screen.
BASE SCREEN OF SCANNER MODE

Scanner mode has two modes: easy mode and normal mode. Easy mode is limited to frequently used functions that allow you to smoothly perform most scan jobs. If you need to select detailed settings or special functions, use normal mode.

To select a function in easy mode
In "Settings", select [System Settings] → [Common Settings] → [Operation Settings] → [Easy Mode Settings] → [Easy Scan]

1. Displays the sizes of the original and the data to send.
2. Select the address and functions you want to use.
3. Reset settings and addresses.
4. Scan the original and show a preview image. ➤ PREVIEW SCREEN (page 17)
5. Automatically set the original placement orientation, resolution, and skipping of blank pages, Duplex Setup*, PDF Skew Adjustment, Automatically Detect Mono2/Grayscale.
   * On the MX-2651/MX-3051/MX-3551/MX-4051, the OCR expansion kit is required.
7. Starts color scanning.
8. Switch the pages for displaying shortcut keys.

9. Change to normal mode.
10. Tap this key to display the soft keyboard.
11. Enter the subject, file name, and other items. The screen varies depending on the scanning type.
12. Setting keys that can be used for sending images.
13. Displays the list of function keys. Frequently used [Others] can be registered.
14. Checking the current settings.

16. Transmission will start.
17. Displays the functions that can be utilized in the Image Send mode.
18. Searches for the address.
19. Displays the address book.
The document filing function is used to store the document or print image on the hard drive when performing a copy, print, or other job. You can print or perform other operations using the saved file at a later time.
This section introduces several of the document filing functions.

► USES OF THE DOCUMENT FILING FUNCTION ...............................54
► SAVING A DOCUMENT ONLY (Scan to HDD) ...............................55
► PRINTING A SAVED FILE..............................................................58
USES OF THE DOCUMENT FILING FUNCTION

Files that you want to store for later use

Store quickly and easily
Quick File
Using Quick File, you can easily copy or send a document and store the document data on the hard drive at the same time.

Quick File Folder
Files saved with Quick File are stored in this folder.

Store and manage
File
Using File, you can copy or send a document and store the document data on the hard drive at the same time. When File is used, a user name and file name can be appended to the stored file. You can also select which folder the file is stored in, for easy file management.

Main Folder / Custom Folder
If a folder is not specified when a file is saved with File or Scan to HDD, the file is stored in the main folder. In addition to the main folder, files can be saved in custom folders. Custom folders are created in the system settings.

Scan to HDD
Use Scan to HDD to store a document on the hard drive without performing printing or transmission. Like File, a user name, file name, and folder can be specified. You can also download a file stored by Scan to HDD from the Web page.

Stored files can be printed or transmitted whenever needed.
A file that has been stored by the printer driver cannot be transmitted.
(The file can be transmitted if "RIP format" is changed to "RGB" format.)
SAVING A DOCUMENT ONLY (Scan to HDD)

Scan to HDD lets you save a scanned document to the main folder or a custom folder. This function is not used to print or send. The procedure for storing a document in the main folder is explained below. To save to a custom folder, tap the [HDD File retrieve] key in the Home screen, tap [Scan to HDD] on the action panel, and select save settings. For more information, see the User's Manual.

Saving by Easy Scan

You can save a file in the main folder or My Folder (when user authentication is enabled).

1. Press the [Home Screen] key. The Home screen appears.

2. Tap the [Easy Scan] mode icon.

3. Place the original. Place the original in the document feeder tray of the automatic document feeder, or on the document glass. ► PLACING ORIGINALS (page 18)

4. Tap the [Scan to HDD/ USB] key.
5 Tap the [Scan to HDD] key.

6 Tap the [Color Start] key or [B/W Start] key.

To check a preview of a document, tap the [Preview] key. ► PREVIEW SCREEN (page 17)
Scan to USB memory device

1. Connect the USB memory device to the machine.
   Use a FAT32 or NTFS USB memory device with a capacity of no more than 32 GB.

2. When a screen for selecting the action appears, tap [Scan to External Memory Device].
   - To select detailed settings in normal mode, select the [Perform Detail Setting] checkbox.
   - BASE SCREEN OF SCANNER MODE (page 52)
   - If the machine/device save screen is open, this screen will not appear.

3. Tap the [Color Start] key or [B/W Start] key.
   To check a preview of a document, tap the [Preview] key.
   PREVIEW SCREEN (page 17)

4. After scanning all originals, tap the [Read-End] key.
   When you scan the original using the automatic document feeder, this screen does not appear.

5. Check the [Sending data has been completed.] message, and remove the USB memory device from the machine.
PRINTING A SAVED FILE

You can retrieve a file stored by document filing and print or transmit the file. You can also print files saved in a USB memory device or a shared folder. The steps for printing the "Copy_20201010_112030" file saved in the main folder are explained below.

1. Press the [Home Screen] key.
   Home screen appears.

2. Tap the [HDD File retrieve] mode icon.

3. Select the file and print.
   (1) Tap the [Main Folder] key.
   (2) Tap the key of the file that you wish to print.
      In this case, tap the "Copy_20201010_112030" key. To check a preview of the printed image, tap [Check Image] on the action panel.
      If you want to delete the file after printing, tap [Print and Delete the Data] on the action panel so that ✔️ appears.
   (3) Tap the [Print Now] key.
The setting mode let you adjust the operation of the machine to suit the needs of your workplace. This section briefly introduces several of the setting mode.
For detailed explanations of the system settings, see "SETTING MODE" in the User's Manual.
SETTING MODE

The date and time can be set, fax and scan destinations can be stored, document filing folders can be created, and various other settings related to the operation of the machine can be configured in the setting mode screen. The procedure for opening the setting mode screen and the items in the screen are explained below.

DISPLAYING THE SETTING MODE ON THE MACHINE

1. Press the [Home Screen] key.
   Home screen appears.

2. Tap the [Settings] key.
   The setting mode screen appears.

   Tap the item that you want to set on menu tab (a) or setting menu (b).

   To exit setting mode, tap the [Cancel] key.

   ► Setting mode when an administrator is logged in (page 62)
WHAT YOU CAN DO IN THE SETTING MODE

The following settings can be configured in setting mode. Some settings may not appear on the touch panel of the machine, or in the Web browser on your computer. Some settings may not appear due to the specifications of your machine and the peripheral devices that are installed.

<table>

</tbody>
</table>
Setting mode when an administrator is logged in

An administrator can configure settings that are more advanced than the settings available to a guest or user. When user authentication is enabled, settings may be allowed without entering the administrator password based on the rights of the logged in user. For the state of the settings, ask the administrator of the machine.

When you select an item in setting mode that requires administrator login, the administrator login screen will appear.

For the items available in setting mode when an administrator is logged in, see "SETTING MODE" in the User's Manual.
Please note

• For information on your operating system, please refer to your operating system manual or the online Help function.
• The explanations of screens and procedures in a Windows environment are primarily for Windows 10®. The screens may vary depending on the version of the operating system or the software application.
• The explanations of screens and procedures in a Mac OS environment are based on Mac OS X v10.12 in the case of Mac OS X. The screens may vary depending on the version of the operating system or the software application.
• Wherever "MX-xxxx" appears in this manual, please substitute your model name for "xxxx".
• Considerable care has been taken in preparing this manual. If you have any comments or concerns about the manual, please contact your dealer or nearest SHARP Service Department.
• This product has undergone strict quality control and inspection procedures. In the unlikely event that a defect or other problem is discovered, please contact your dealer or nearest SHARP Service Department.
• Aside from instances provided for by law, SHARP is not responsible for failures occurring during the use of the product or its options, or failures due to incorrect operation of the product and its options, or other failures, or for any damage that occurs due to use of the product.

Warning

• Reproduction, adaptation or translation of the contents of the manual without prior written permission is prohibited, except as allowed under copyright laws.
• All information in this manual is subject to change without notice.

Illustrations and the operation panel and touch panel shown in this manual

The peripheral devices are generally optional, however, some models include certain peripheral devices as standard equipment.

The explanations in this manual assume that a paper drawer is installed on the MX-4071.

For some functions and procedures, the explanations assume that devices other than the above are installed.

The display screens, messages, and key names shown in the manual may differ from those on the actual machine due to product improvements and modifications.
